Fully compatible with all your media devices

- ◆ Qvideo – Video library on the go
- ◆ Qmedia – Enjoy your videos on big screen
- ◆ Multi-zone video streaming

4

Convenient Video Sharing

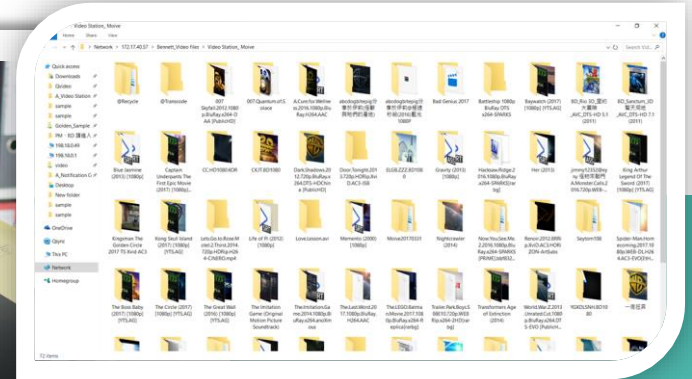

- ◆ Create your own video sharing page
- ◆ Share & Upload your videos to social media website

1 Flexible Category Customization for better representation

Do You Still Worry spend too much time arranging your Videos ?

Highly flexible Category Customizations

Add a Category

Online Library Setting

Select media folders

The screenshot shows the VideoStation 5 interface with the Settings dialog box open. The dialog has four tabs: Classification settings, Search subtitles, Privilege, and Miscellaneous. The 'Classification settings' tab is active, showing a list of media categories on the left and configuration options on the right. Annotations with arrows point to specific features:

- Add a Category:** Points to the '+ Add classification' button in the Classification settings tab.
- Online Library Setting:** Points to the 'Data source' dropdown menu, which is currently set to 'TMDb'.
- Select media folders:** Points to the '+ Add' button in the Media folder section.

The 'Media folder' section displays a table of configured folders:

Path	Show videos		
bennett/video/Movie	☒		
Bennett_Video files/Video Station_ Moive	☒		

At the bottom of the dialog, there is a 'Close' button and a note: 'Video Station provides a great way to browse different videos. You can set the default video media folders for films, TV series, home videos and music videos; or customize these classifications based on your preferences and set the relevant video source folders.'

Three Main Features in Movie / TV Show Category

1

Resume Playback

Automatically resume video playback from where you left last time.

2
