

Music Station

Insider Tips for using Music Station & Qmusic

I am a music enthusiast, and I...

1 ...have a **huge amount of digital music**, including high resolution FLAC files. I hope there could be a **huge storage** to keep files

2 ...want an easy way to **manage my collections**

3 ...wants to share music across many devices

I am just a music lover, and I...

1

...have **lots of music files**, and I want to easily **manage** them.

2

...**wants to share** my favorites with friends

3

...**wants to listen to music anytime, anywhere**

No matter who you are, we've got it

Fantastic music feast in Music Station

1

Manage files easily

1. Supports various music formats
2. Categorizes songs automatically according to metadata
3. Advanced search
4. Smart playlist

2

Convenient music sharing

1. Set and manage shared link
2. Easily share music to social media websites

3

Supports streaming to various devices or local output

1. Qmusic on the go
2. Network streaming to multi-zone or local output

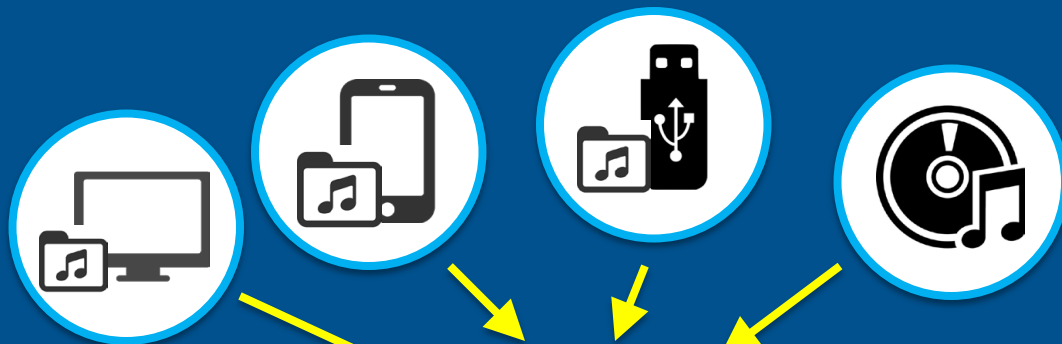

**Manage huge amount of
music files with ease**

Support various music formats
Lots of functions for you to easily manage

Lots of collections, but kept in different devices?

No space to centrally store and manage all the collections?

Store on QNAP NAS!
Music Station solves
your problems!

Physically small, but large in capacity

By using high-capacity hard drives, terabytes of storage is available for music!

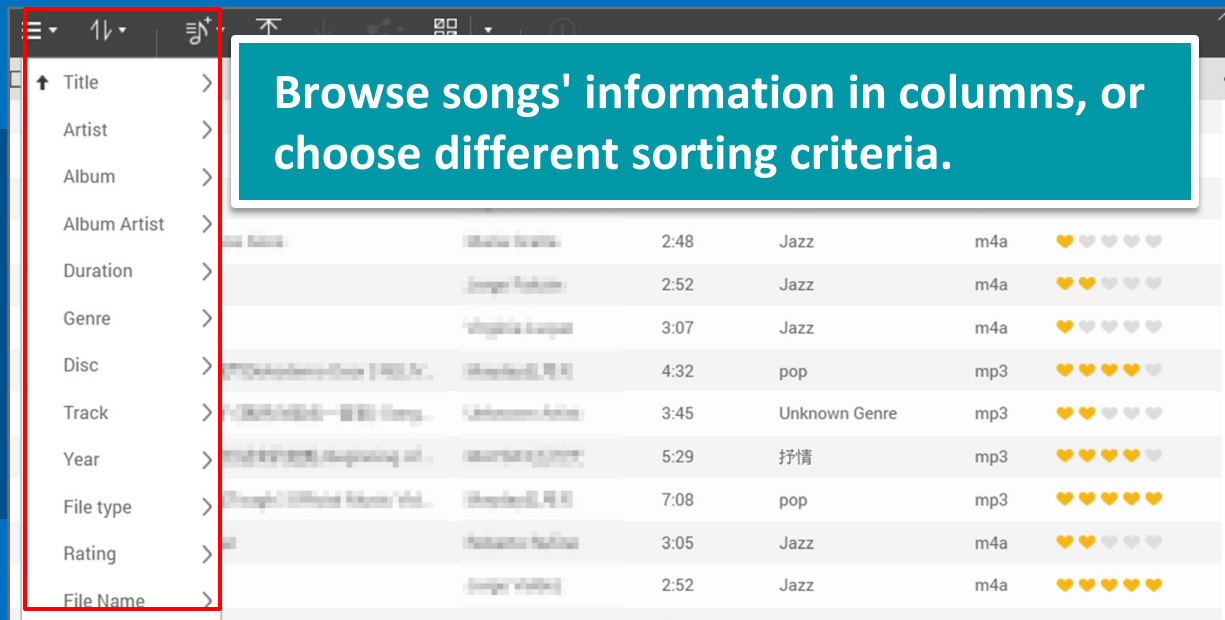

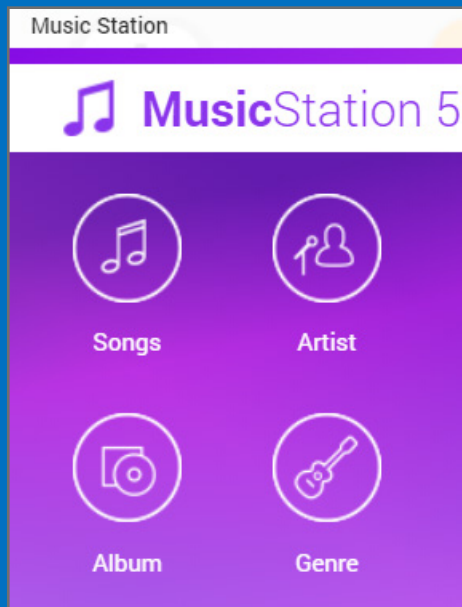

Music Station supports some common music formats :
MP3, FLAC, APE, M4A, DSD ...etc

It won't be a problem to store and listen to thousands of lossless files!

Categorizes songs automatically

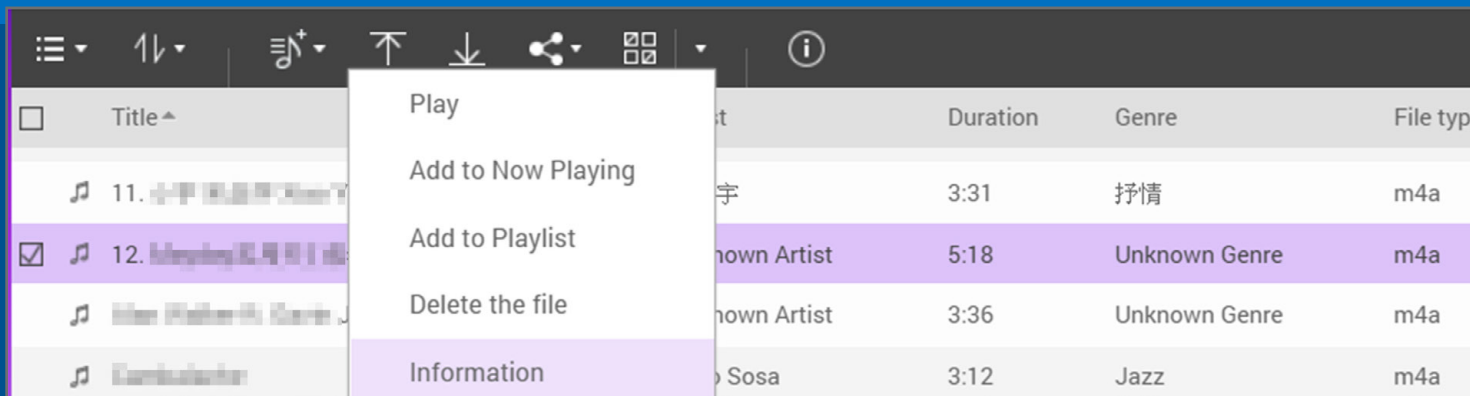

Upload music through File Station or **Music Station**.
Music Station will categorize songs by their ID3 Tag.

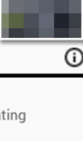

Edit metadata

**It is not the problem if the metadata of song is incomplete!
You can edit information by yourself**

Edit song information : Right click → "Information" → Edit
