Boxafe 1.5

Reasons why you need to backup SaaS content

**Accidental
Deletion**

**Malicious
Deletion / Hacker**

**Ransomware
Attack**

**Legal Compliance &
Litigation Purpose**

**Keep previous
data**

**SaaS providers asks
you to protect data**

Microsoft's Shared Responsibility Model

Microsoft tells you that it's your responsibility to protect your data.

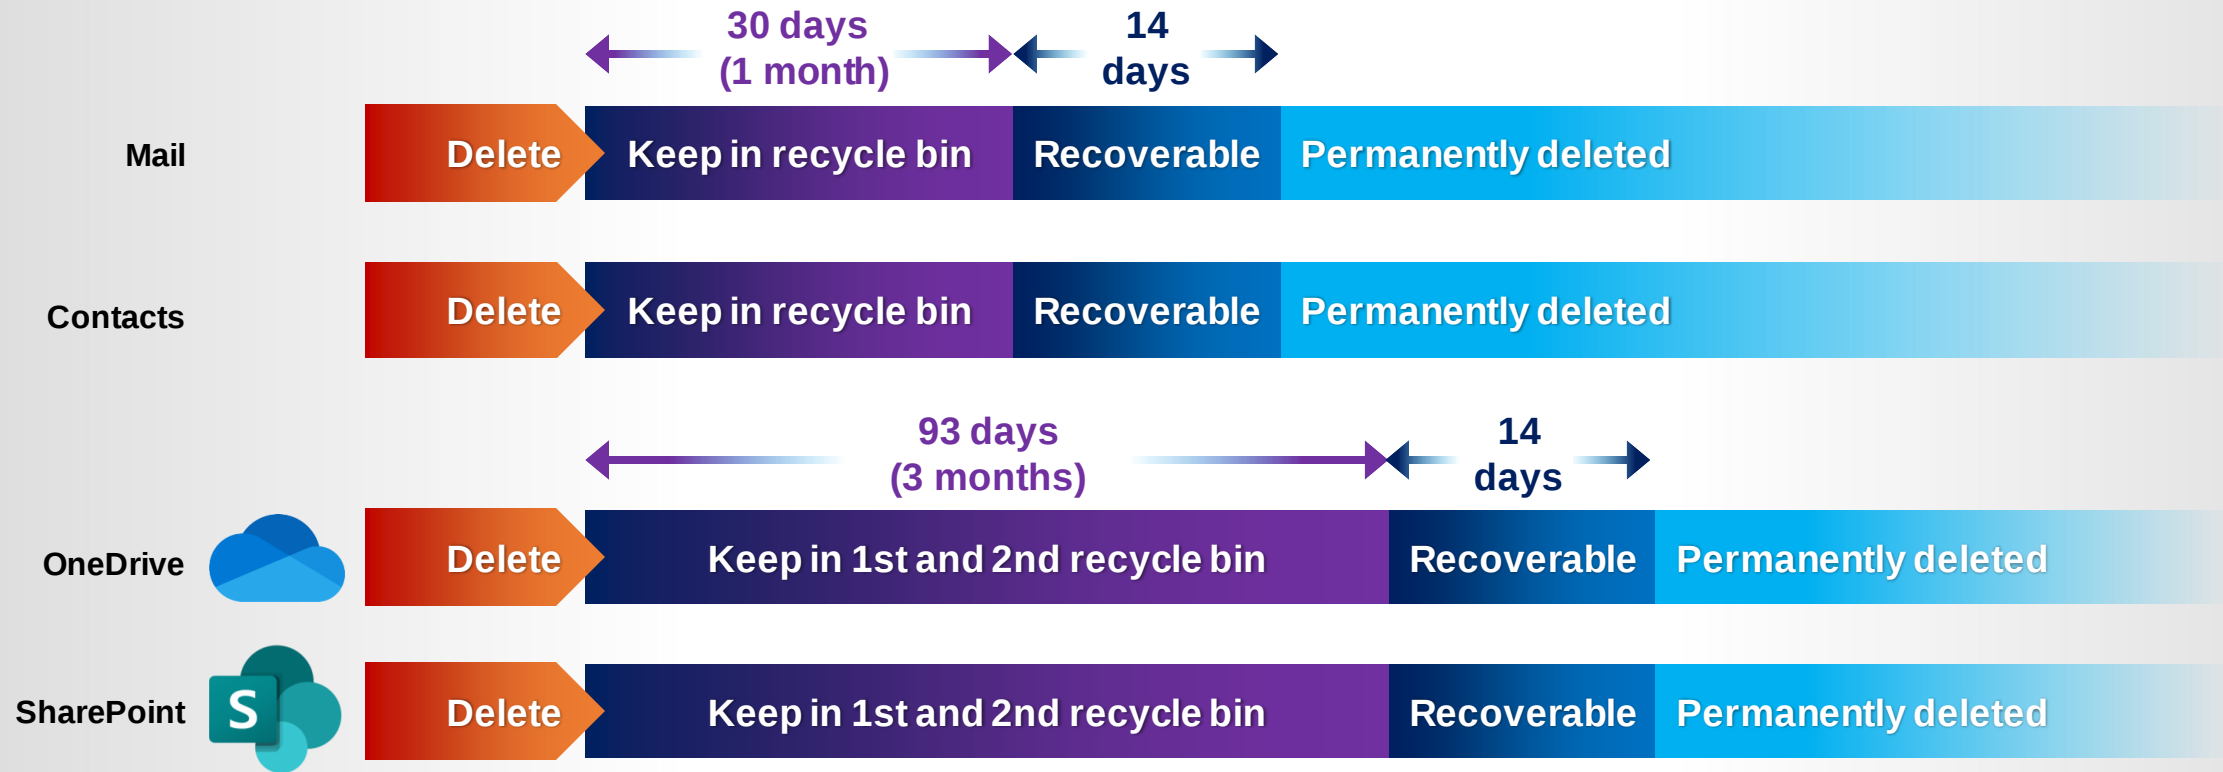

Microsoft's Standard Recovery Policy

Your data is not always protected by Microsoft!

Boxafe safeguards your Business data!

Boxafe protects

Outlook (mail, calendar, contacts)

OneDrive

SharePoint

Teams

with

Friendly UI

Security

Reliability

Data Centralization

Boxafe is reliable

More than 20K organizations protect data by Boxafe

See what the users said:

We were looking for a flexible backup solution for Microsoft 365 and Google Workspace for our customers. Boxafe is working fine.

Great to have Boxafe to protect our Microsoft 365 environment.

It works great on the whole.

Backups have run now for all accounts and everything seems to work fine.

QNAP

**Boxafe comprehensively
protect data in SaaS**

Add support Microsoft Teams Backup

Comprehensive protection

Microsoft 365 - Outlook mail

Backup Items

1. Personal mailbox and shared mailboxes
2. Email content and attachment
3. Email folder structure

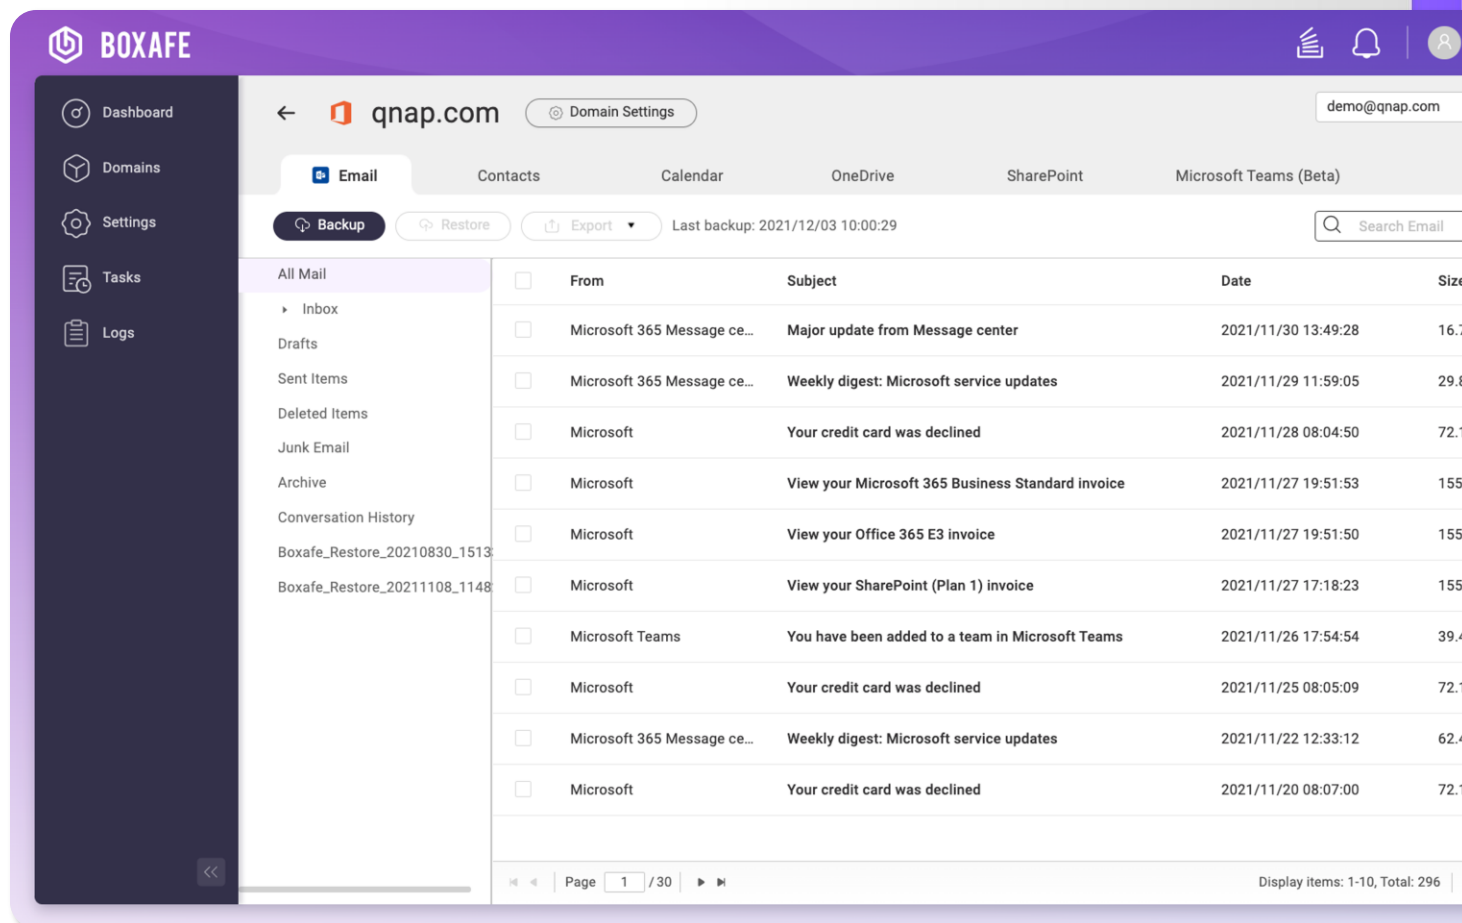

Search Criteria

Subject, From, To, Cc, Bcc, and location of email

Restore Options

1. Granularly restore
2. Cross-account restore

Comprehensive protection

Microsoft 365 - Outlook calendar

Backup Items

All calendars and data including event information and attachments

Search Criteria

Calendars, Organizer, Title, and Location

Restore Options

1. Granularly restore
2. Cross-account restore

The screenshot displays the Boxafe web interface for managing QNAP backups. The left sidebar contains navigation links: Dashboard, Domains, Settings, Tasks, and Logs. The main content area is titled 'qnep.com' and shows the 'Calendar' tab selected. Below the tabs, there are buttons for 'Backup' and 'Restore', along with a 'Version' dropdown set to '2021/12/03 16:28:21' and a date range selector for '2021-12-01 ~ 2022-01-31'. A search bar is also present. The main table lists calendar items with columns for Title, Location, Start Time, End Time, and Organizer. The table shows five items: 'United States holidays', 'Birthdays', 'Project A review', 'Project C kickoff', and 'PM meeting'. The bottom of the interface shows a pagination bar indicating 'Page 1 / 1' and 'Display items: 1-5, Total: 5'.

	Title 1↓	Location 1↓	Start Time 1↓	End Time 1↓	Organizer 1↓
☐	Project A review		2021/12/07 11:00:00	2021/12/07 11:30:00	QNAP-MPM demo@qnap.com
☐	Project C kickoff		2021/12/09 14:00:00	2021/12/09 15:00:00	QNAP-MPM demo@qnap.com

Boxafe 1.5

Boxafe 1.5 now supports Microsoft Teams backup!

What is Microsoft Teams?

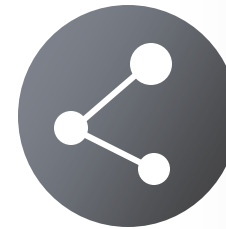

An integrated service helps businesses for the purpose of

Communication

Meeting

File sharing

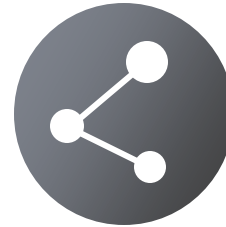

Comprehensive protection for Microsoft Teams

Boxafe backup all the data you care in Microsoft Teams:

Conversation:
posts in the channels

Site:
files shared in the Teams

Calendar:
Teams meeting information

NEW

Comprehensive protection

Microsoft 365 - Teams conversation

Backup Items

Posts in every public and private channels

Search Criteria

Channel, Message text

Restore Options

Post can not be restored due to Microsoft limitation. You can export posts as the html file for audit purpose.

The screenshot displays the Boxafe web application interface. On the left is a dark sidebar with navigation links: Dashboard, Domains, Settings, Tasks, and Logs. The main content area shows a backup of Microsoft Teams conversations from qnap.com. At the top, there are tabs for Email, Contacts, Calendar, OneDrive, and SharePoint, with 'Microsoft Teams (Beta)' selected. Below these are buttons for 'Conversation', 'Backup', and 'Export'. A 'Version' dropdown is set to '2021/12/03 16:07:38'. The central table lists backup items with columns for 'Conversation', 'General', 'Username', 'Message', and 'Last Modified'. The table contains five rows of data, all from 'QNAP-MPM'. On the right, a 'Details' sidebar shows the selected item's metadata: Username, Channel, and Message. The bottom of the interface includes a pagination bar showing 'Page 1 / 1' and a 'Display Items' section indicating '1-5' of a total of '25' items.

The screenshot displays the Boxafe web interface for managing backups of a Microsoft 365 Teams Site. The interface is divided into a left sidebar with navigation options (Dashboard, Domains, Settings, Tasks, Logs) and a main content area. The main content area shows the 'Backup' tab selected, with a 'Restore' button and a 'Version' dropdown set to '2021/12/03 16:07:38'. Below this, a table lists the backup items, including 'appdata', 'appfiles', 'Composed Looks', 'Converted Forms', 'Documents', 'Form Templates', 'List Template Gallery', 'Master Page Gallery', 'Site Assets', and 'Site Pages'. The table columns are 'Name', 'Type', 'Size', and 'Last Modified'. The 'Name' column is sorted in ascending order. The 'Type' column shows various document libraries and lists. The 'Size' column shows the size of the items, and the 'Last Modified' column shows the date and time of the last modification. The interface also includes a search bar at the top right and a user profile icon.

**IT friendly and easy
management**

Dashboard for domains management

Manage multiple domains with dashboard

- Protection status
- Data consumption
- Upcoming Scheduled Tasks
- Recent Tasks Report

Add new accounts automatically

Ensure everything are protected!

When a new account, Microsoft SharePoint, Teams are added on the cloud, Boxafe will automatically add them to the backup task

The screenshot shows the Boxafe web interface. On the left is a dark sidebar with navigation links: Dashboard, Domains, Settings, Tasks, and Logs. The main area is titled 'Domains Management' and has tabs for '+ Add Domain', 'Edit Domain', and 'Backup Schedule'. The 'Edit Domain' tab is active, showing a list of domains with 'Full Protected' status. A modal window is open over the 'Edit Domain' tab, allowing configuration for a specific domain. It includes checkboxes for 'Calendar', 'SharePoint', and 'Microsoft Teams', all of which are checked. Below these, there are three sections: 'Add Users:', 'Add SharePoint Site:', and 'Add Microsoft Teams:'. Each section has two radio button options: 'Auto' (selected) and 'Manual'. The 'Auto' option is highlighted with a blue circle. The 'Auto' option for 'Add Users:' includes the text 'Automatically synch...' and a description 'with cloud services and add new users to Boxafe.' The 'Auto' option for 'Add SharePoint Site:' includes the text 'Automatically synch...' and a description 'with Microsoft 365 and add new sites to Boxafe.' The 'Auto' option for 'Add Microsoft Teams:' includes the text 'Automatically synch...' and a description 'with Microsoft 365 and add new Microsoft Teams to Boxafe.' At the bottom of the modal are 'Update' and 'Cancel' buttons. The top right of the interface shows a user profile for 'admin' and a search bar. The bottom of the interface shows pagination information: 'Page 1 / 1' and 'Display items: 1-2, Total: 2 | No. of items: 10'.

Multouser access for self-service restore

- Backed up data cannot be accessed by unauthorized personnel.
- Restoring data to the cloud can be done by user.

Add User

You can add a Boxafe user.

Select user:

josh

Specify a user or select one from the list.

Select a role:

User

This will define the level of access provided to the added user.
All admins are global admins with full access.

Select domain:

qnap.com

Select a domain from the list.

Select email-ID:
