01

PART

**Easily get the hang
of OceanKTV**

As a person who loves to sing, you must did...

- Go to Karaoke
- Sing with YouTube & music software
- Build a KTV box by yourself
E.g. use Karaoke software on website, or use your computer as the music database
- Buy a Karaoke machine

But...here comes the concerns

Go to Karaoke

No rooms are
available

Sing with YouTube & music software

Sing with the
singer's voice

Build a KTV box by yourself

E.g. use Karaoke software on website, or
use your computer as the music database

Hard to manage
music database

Buy a KTV machine

You really
don't use it
that often

OceanKTV

**Turns your home into a
karaoke room easily!**

QNAP OceanKTV meets your needs

- **High Capacity**

Can store thousands of 1080p karaoke songs on the NAS

- **RAID Data Protection**

Create RAID to protect songs. No worries for disk damage on RAID1/RAID5. A copy is always there.

- **Free for everyone**

No extra cost. Use it as you want

- **OceanKTV Database Management**

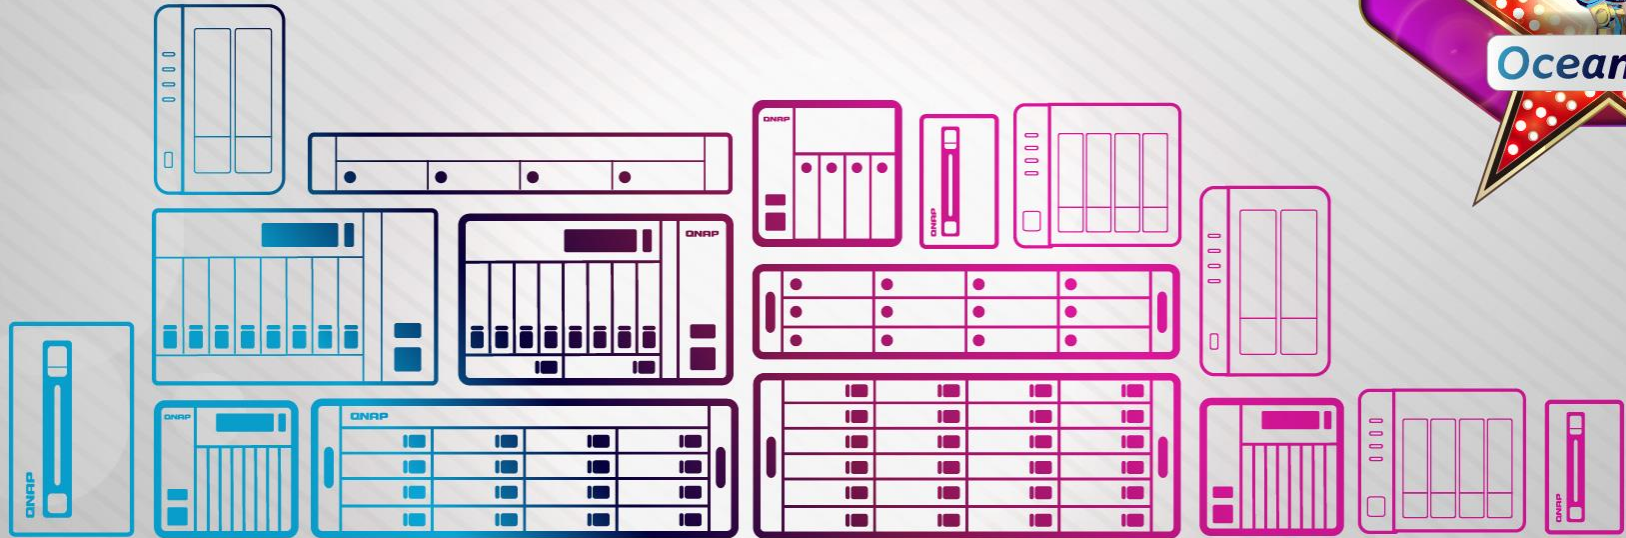

Simple importing rules to help users easily import and manage lots of songs

- **Multiple platforms**

Can operate on TV, computer and/or mobile device

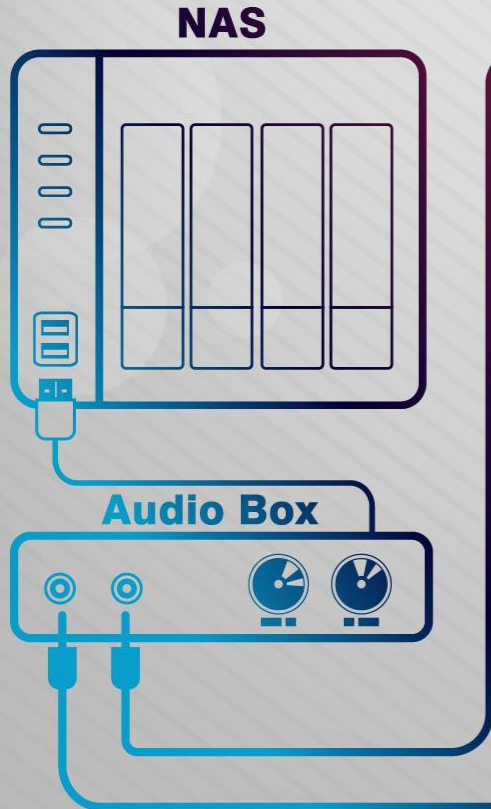

Easily build a
karaoke room !

**EASY
MAKE** 

**Which model can OceanKTV be
used on?**

Which model can OceanKTV be used on?

NAS Requirements!

- Models with Intel or AMD processor
- At least 2 GB RAM
- At least 1 HDMI out
- Line-out jack (or buy **USB soundcard**)
- Mic-in jack (or buy **Audio Box**)

OceanKTV

**After installing OceanKTV,
then we can start to sing?**

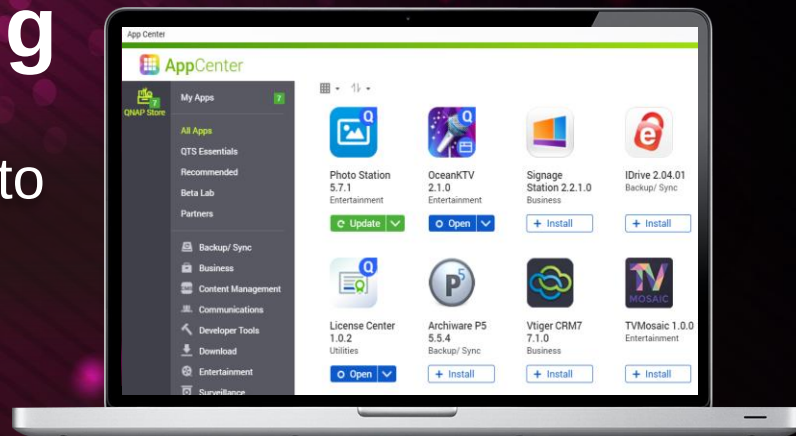

Two steps to start singing

01

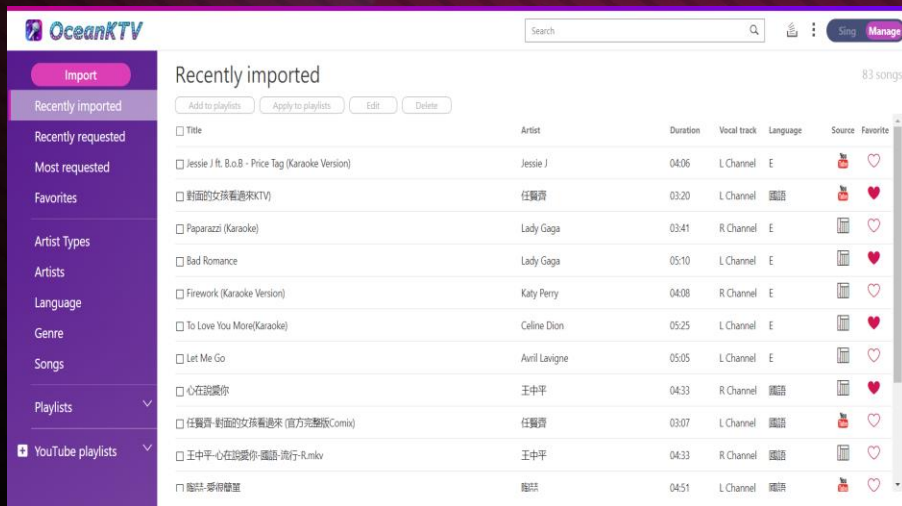

STEP

After installing OceanKTV, go to the app and do some setup

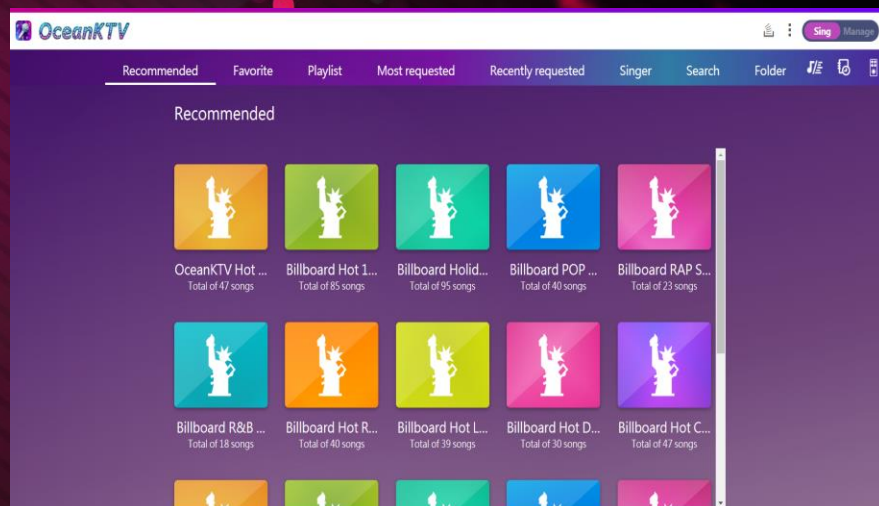

Web OceanKTV- Database management & Request songs all in one

- Import and manage your songs in Web OceanKTV
- Freely switch to **[Manage]** or **[Sing]** modes

[Manage]- Import songs, edit song's information

[Sing]- Various categories for you to instantly find and request songs

Two steps to start singing

02
STEP

Connect NAS & TV via
HDMI to start singing

HDMI

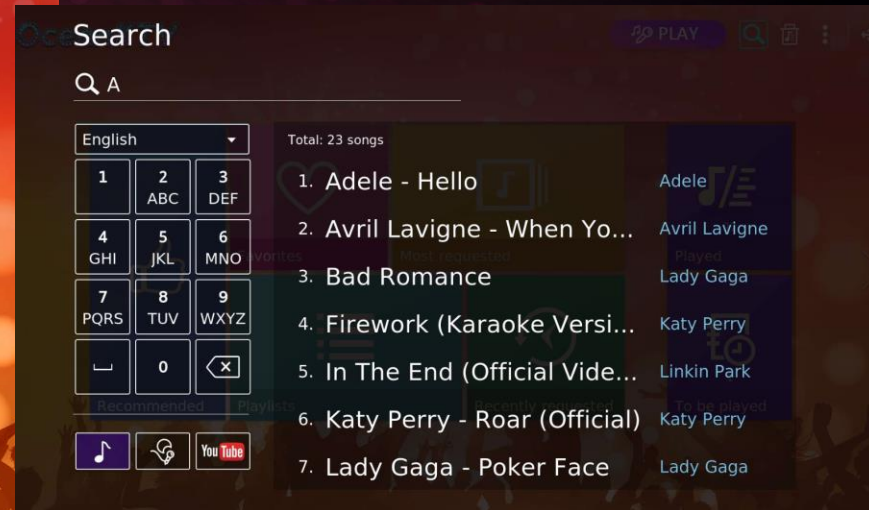

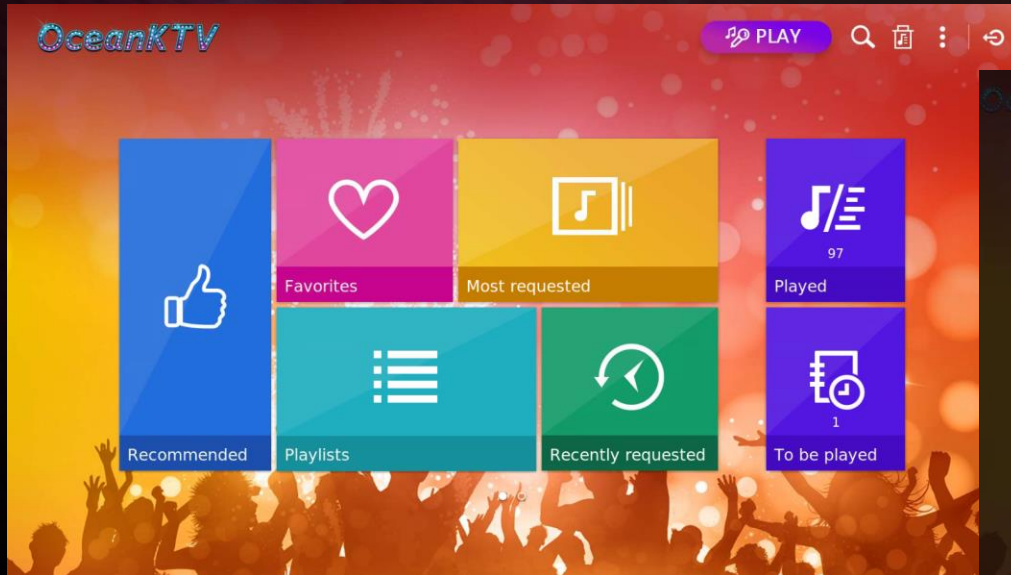

QNAP

Request, Singing songs are all on TV

On TV page, intuitive interfaces are available, or use Search function to find the song!

Give it a try on requesting songs with NAS remote!

Enjoy singing on big screen

- Complete karaoke features
- Search or request songs while singing

Pause, cut, tune-tuning, volume controls, pitch-tuning, echo cancelling, sound effects, and more

Each categories in homepage are also presented in "Quick Add". You can easily request songs while singing.

Besides "Quick Add", search function can also be used when singing.

OceanKTV

What can we do when there is only one remote, and it is not enough for multiple people to request songs?

OceanKTV Client-

Turn your mobile device into remote controls

- OceanKTV Client supports iOS & Android devices
- As a KTV remote control
- Requesting songs

OceanKTV Client- Karaoke To Go

Karaoke To Go

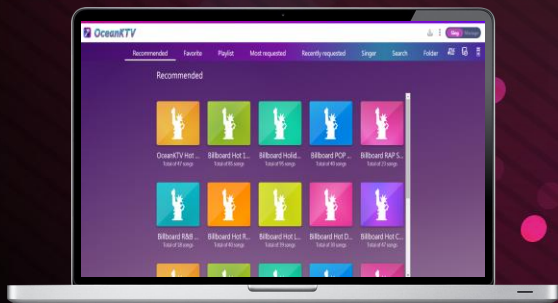

Use the Karaoke To Go function in OceanKTV Client, sing the downloaded song that you import to NAS, then record the video while singing. You can also share the recorded video to your friends.

Each platform of OceanKTV has its main features

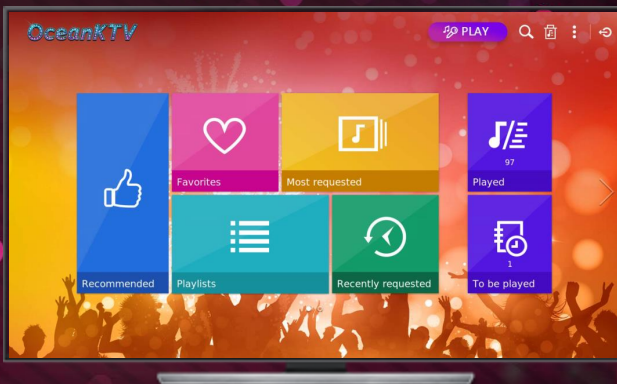

Web

Database management

TV

Sing songs

Mobile device

Remote control

All of them can request and operate songs

User feedbacks of OceanKTV

Since its launch in January 2016,
OceanKTV has been downloaded **91K times**

iOS downloads: **14K**

Android downloads: **8.52K**

Users extend all over the world

QNAP

OceanKTV

Good Day, I get echo from microphone with QNAP Audio box KAB-001. Can the echo be removed please? I only get choice of Small, Medium or Large Echo. I do not want any echo.

所以我想有沒有一些比較好的方法讓我們用家可以容易改歌資料

2016/10/22 上午9:25 8 學 0

★★★★★

很棒的功能 能不能有小工具幫助改檔名，現在的方式很難使用

When will QNAP restore search by folder (資料夾搜尋) functionality that was in v1 of OceanKTV?? v2 is useless without it.

為什麼V2播放4：3比例MPG時，無法將video拉全屏？在V1沒有這個問題，能否恢復伸展到窗口功能？

終於等到了，謝謝！為什麼沒有歌曲類型點歌的選單？

沒有by folder

你好，有些小問題，在電話的“點歌本”只有依歌手
依語言
請問怎樣增加“歌手類形”和“歌曲類形”呢？

QNAP OceanKTV thanks for the response. I'm looking forward to it. I suppose a matching mobile version is in the works too. PM me if you need beta testers.

我有看到現在歌手是一格一格的分類，有考慮可以把頭像匯入嗎？

And also no longer can search songs from folder

未知下次更新可於歌手欄加入自定歌手照片嗎？

如果想在iphone打開OceanKTV的“點歌本”只有依歌手和語言兩種方法快速分類點歌，如果有成千上萬的歌曲，用電話點歌沒有好處，希望加入電腦已有的“歌手類形”和“歌曲類形”快速分類等點歌方式

Worldwide OceanKTV users give different suggestions and feedbacks

QNAP OceanKTV 可否加一個stretch to screen的選擇？默認可以是正常比例，但相信很多人希望能夠全屏唱k，包括我在內，現在暫時downgrade回V1了

Want a way to choose song from local disk (by folder) with the mobile app (android)

QNAP OceanKTV 感覺在V1開隔並沒有這麼長時間，可以接受。如果真的是唱歌休息一下是合理，但是很多時間是因為out歌，希望可以快些進入下一曲，請問最遲需要多長時間處理背景工作？希望可以由用戶控制某個數值（最低值可以是最短所需時間）

QNAP

其實，光是要把外面的演唱檔案複製到NAS裡面，本身就是個大工程了，還要照特定的規則去改名，結果好不容易弄好了，還要等NAS建立索引才能看到，這一等至少要去掉半天一天

而最後的結果還不見得是心中想要的呈現方式，只好再去調整檔名，然後又要等半天一天

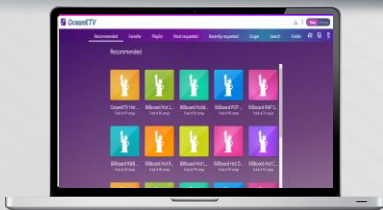

當消費者是時間太多太宅嗎？成天就跟你耗那個檔名就能了

Top feedback from OceanKTV users

Collaborated from FB fan page, forum, support system & App review

Web

1. Optimize the way to import songs
2. Show and edit photos in Artist page
3. Request songs by Folder

Mobile device

1. Request songs by Folder
2. Request songs by Artist Type and Genre

TV

1. Disabling microphone's echo
2. Stretch video
3. Optimize the passing time

I Want...

**An easy and quick way to
import lots of KTV songs, so
that I can request songs in
each categories**

I have lots of KTV songs...

PAST

Edit one by one is so time-consuming

Song titles are required to follow the naming rule. Then the song can be found in [Songbook]

e.g. Adele[F]_ Someone Like You[E][L][Karaoke].mp4

NOW

It won't bring me down

As long as the songs' name in the folder are same, system can import all the songs by the rules you set at once!

Simple importing rules

Collaborate songs
in the folder

The file names'
format are consistent

Three steps to import songs

Select folder

Define rules

The screenshot shows the 'Import' dialog box with the 'Define rules' step selected. The dialog has a title bar with an 'Import' button and a close button. Below the title bar are three tabs: 'Select folder', 'Define rules', and 'Preview'. The 'Define rules' tab is active. It contains several fields for defining import rules. A pink box highlights the 'Symbol to separate columns' field, which is set to '-'. A blue box highlights the 'Artist name' field, which is set to 'Blank'. Below the 'Artist name' field is a dropdown menu with four options: 'Blank', 'Use column in file name', 'Use folder name', and 'Use default value'. The 'Song title' field is also set to 'Blank'. The 'Language' field is set to 'Use column in file name'. The 'Artist type' field is set to 'Use folder name'. The 'Genre' field is set to 'Use default value'. The 'Vocal track' field is set to 'Blank'. At the bottom of the dialog are 'Cancel', 'Previous', and 'Next' buttons. The 'L Channel' is set to 'L', 'R Channel' is set to 'R', 'Track 1' is set to '1', and 'Track 2' is set to '2'.

I don't have
KTV files

I can not use
OceanKTV to sing?

Do not worry if you do not have KTV files!

In OceanKTV [Manage] mode, type the keyword in search bar, then you can easily get the result of songs and playlists on YouTube™

The screenshot shows the OceanKTV web interface. On the left is a purple sidebar with navigation links: Import, Recently imported, Recently requested, Most requested, Favorites, Artist Types, Artists, Language, Genre, Songs, Playlists, and YouTube playlists. The main area is titled "Recently imported" and contains a list of songs. A search bar at the top right has "Bruno KTV" entered. A dropdown menu is open, showing search results for "Bruno KTV". The menu includes sections for "OceanKTV Songs" (No search results), "YouTube playlists" (listing "【字幕】車上與歌星KTV", "KTV English", "Carpool Karaoke", "KTV", and "KTV"), and "YouTube songs" (listing several Bruno Mars songs and "Mark Ronson ft. Bruno Mars - Uptown Funk"). The main list of songs includes titles like "Paparazzi (Karaoke)", "Bad Romance", "Firework (Karaoke Version)", etc. At the bottom of the page, there is a pagination bar showing "1 / 6".

Tips: add "KTV" in keyword
