I am not familiar with something good on private cloud, only public, many friends use Evernote and similar services, but I prefer to keep my information in house 😎

by **sjaglin** » Fri Aug 28, 2015 3:52 am

Hi,
NAS 119+ firmware 4.2.0
I am an intense evernote user but as I am interested to make my NAS work with it.

by **tperoutka** » Mon Aug 29, 2016 8:07 pm

Hi,

I want to use QNotes as replacement for Evernote.

The most important thing I am missing at the moment

I'm also wondering if there will be an option to import from Evernote as in the previous version?
James

QNAP

# Embed YouTube videos

Embed YouTube videos

- Insert YouTube videos into notes
- Embed the video using the YouTube URL
- Or simply paste the link in the note

QNAP

Why user want to embed YouTube videos?

- Adding YouTube embedded video for a more informative note
- A note with YouTube video can be shared with others
- To have a quick look about the content, without leaving the Notes Station 3 application

QNAP

Qnotes3
